<https://www.linkedin.com/in/pawan-kumar-cloud-devops-engineer/>

I have 3 years of combined experience in web development and cloud fundamentals. Skilled in AWS (EC2, S3, IAM, CloudWatch), Docker, and Git, I am shifting my focus to cloud engineering and solution architecture. My development background gives me a strong base to design, deploy, and optimize secure, scalable solutions.

PERSONAL INFORMATION

I am a cloud-focused professional with a strong foundation in web development and hands-on experience in AWS services such as EC2, S3, IAM, and CloudWatch. My background in hosting, deployment, and performance optimisation helps me design secure, scalable, and cost-efficient solutions that meet real business needs.

Along with my professional work, I have consistently upgraded my skills in cloud architecture, security, and automation to match industry demands. I bring the discipline, problem-solving mindset, and teamwork experience needed to contribute from day one. My goal is to deliver high-quality, impactful cloud solutions and grow as a trusted AWS Solution Architect within your organisation..

TECHNICAL SKILLS

Tools:	WordPress, Shopify, Wix, CodeIgniter (Frontend), HTML, CSS, JavaScript, Bootstrap
Version Control	GitHub Desktop, GitHub ,git
Project Management:	Trello , Agile Methodologies (Scrum, Sprint Planning)

Hosting & Deployment:	cPanel, Cloudflare, Hostinger, Hostgator, Godaddy, AWS (EC2, S3, IAM, CloudWatch ,lambda ,amazon lightsail , Nginx , VPC)

CERTIFICATIONS & EDUCATION

Pursuing Master of Computer Application in Computer Science and IT from Jain University, India in 2024

Ongoing Advanced DevOps & Cloud Computing Certification - iHUB DivyaSampark, IIT Roorkee (DST, Govt. of India Initiative)

Bachelor of Science in Computer Application (B.C.A) from Doranda College, Ranchi University, India in 2021

Higher Secondary Education (P.C.M)

from Guru Nanak Hr. Secondary School, India in 2018

CORE COMPETENCIES

Web Design & Development	Test Execution and Reporting	Front-End Testing
Collaboration & Communication	Debugging	Project Execution & Monitoring
Code Quality	Continuous Learning & Improvement	Deployment & Hosting

WORK EXPERIENCE

Nov'22 - May'23: **Nimbus Adcom Pvt Ltd, Noida** as Web Developer

May'23-March'24: **Ap Web World, Noida** as Web Developer

March'24 - Present: **Mirashka, Noida** as Web Developer and Research Associate

Notable Roles Across the Career:

Mirashka, Neaten India Noida

Project:

- Develop and **customize themes and plugins** to meet client requirements.
- Upskilling in **AWS cloud hosting** and deployment, including **EC2, S3, RDS**, and automated deployment workflows.
- Implement and manage hosting environments for high-traffic blogging websites, including migration from traditional platforms (cPanel) to AWS for improved **scalability, performance, and reliability**. Optimize **websites for performance, security, and SEO**.
- Ensure cross-browser compatibility and optimize performance for various devices.
- Work closely with designers, project managers, and other developers to deliver cohesive web solutions.
- Use frameworks like **CodeIgniter** for building and maintaining scalable web applications.
- Utilize Git for version control, ensuring efficient collaboration and code management

AP Web World, Noida

Project:

- Managed **CMS** platforms like **WordPress** and **Wix**.
- Conducted frontend testing for **responsive design**.
- Integrated **plugins** for enhanced functionality.
- Collaborated with designers on web design projects.
- Researched and implemented new web technologies.
- Developed captivating landing pages using **HTML, CSS, and JavaScript**.
- Resolved functionality errors for smooth operation.
- Implemented website changes to meet client needs.

Nimbus Adcom Pvt Ltd, Noida

Project:

- Conducted research on the latest web development trends and technologies.
- Worked collaboratively with developers on web projects.
- Conducted comprehensive testing to ensure dependability.
- Incorporated best practices for **web security**.
- Kept up to date with the latest trends and technologies in web development.
- Assisted in front-end development using **HTML, CSS, and JavaScript**.
- Collaborated with team members to meet project deadlines.
- Learned and implemented **responsive design** principles.
- Participated in code reviews and quality assurance processes.
- Contributed to documentation and project updates.
- Adhered to best coding practices and **security standards**.
- Sought guidance from experienced developers to enhance skills.
