Senior NetSuite Developer / Integration Specialist

With 9 years of experience in NetSuite development, I have successfully implemented and maintained NetSuite solutions and integrated systems with third-party tools. I have provided technical support, created customizations, and conducted data migration, enhancing business processes and streamlined operations.

WORK EXPERIENCE

DataOngoing   05/2021 - 04/2025
NetSuite Technical Consultant • Contractor

• Integrate HubSpot and NetSuite to automatically enroll Deal records and trigger a custom code to send the deal to NetSuite.
• Integrated VeraCore with NetSuite for fulfillment automation and synchronization.
• Created a SuiteLet to create an opportunity from the deal and also create an invoice from the opportunity.
• Created a workflow in NetSuite to catch the point of invoice creation and execute a User Event script to send the invoice to Stripe.
